# ACTIVITIES @ NUNYARA

Effective 1 February 2016

**Beyond Limits**  
Uniting Venues SA

---

## **Amazing Race**

Set in the grounds of Nunyara, participants race their way through a series of challenges that stretch their physical and mental capabilities.

## **Billy Carts**

Teams work together in teams to put together a Billy Cart and race other teams in a technical, timed course on our flat outdoor space. (Ideal for years 3-7).

## **Brain Twister**

Participants are subjected to a series of team activities that require 'out of the box' thinking if the group is to be successful.

## **Bush Cooking and Shelter Building**

Participants will be learning how to build and start a fire in a controlled environment, cooking some delicious food and working together as a team to build a shelter that will hopefully stand the test of 'a water hose'. This activity requires team work, problem solving and wise thinking for success.

## **Challenge Course**

In groups, participants navigate their way through a series of fun yet challenging activities that require teamwork, problem solving and initiative to achieve success.

## **Disc Golf**

Participants are placed into small teams as they work their way around the 9 whole disc golf course. This can also be used as a free time activity.

## **Epic Oval Game**

On an oval at the Belair National Park, students are in two teams, working together to accomplish the task of gaining as much equipment as possible from the other team with challenges along the way. This activity is high energy and lots of fun.

## **Initiative +**

Finding balance in life can be difficult, particularly when working with a group of others! "Initiative+" gives participants a chance to use their balance, communication and team work skills in a range of activities including Aslan's Table (A giant balancing platform), the Skinny Log and the Toxic Swamp.

## **Mountain Biking**

Participants will start off with an introduction into their mountain bike, undergo a competency test and then embark on a journey exploring the rustic and beauty that is the Belair National Park. Will they be able to spot a wild emu, a kangaroo with its joey on board, or a cuddly koala in the trees? What better way to experience this amazing natural environment with your friends.

### **Narrow Escapes**

Participants engage in a series of challenging obstacles including low ropes, a wall, tires and a spider's web. Success is dependant upon the group's level of teamwork, cooperation and encouragement.

### **Orienteering**

Participants engaged in reading maps, exploring and finding land marks with the aid of their map. This is completed as an Orienteering Introductory Session on-site at Nunyara. They are then able to complete the Orienteering Course at the Belair National Park in groups.

### **Oval Games**

In teams, participants undertake a number of activities designed to maximize teamwork and encourage physical participation – a great way to start camp. This activity is at the Belair National Park.

### **Parachute Games**

Participants are engaged in a series of team games where team work and cooperation is a must. (Ideal for Years 2-4.)

### **Playford Lake Discovery Walk**

A guided walk around Playford Lake, discovering some of the flora and fauna found in the area by completing a questionnaire of the surrounding Lake. Playford Lake is situated in Belair National Park.

### **Sculptionary**

Participants are engaged in a whole group game where communication is a must to accomplish the task set before them. A great way to finish off camp.

### **Tree Climb**

Participants will have the challenge of climbing up a tree as far as they can to a maximum height of 12m. Will they face their fears? And climb to their limits?

### **Water Obstacle Course**

In the spirit of "Survivor" tribes work together to put together a series of elements that will transport water between two points in order to release a puzzle. A fun activity, not for the faint hearted. Be prepared to get wet and muddy!
